

THE CITY OF
NORFOLKSM

The logo for the City of Norfolk features the word "NORFOLK" in a bold, dark blue, sans-serif font. The letter "O" is replaced by a green circular emblem containing a stylized white figure of a person with arms raised, set against a background of green wavy lines. Above the "FOLK" portion of the word, the words "THE CITY OF" are written in a smaller, dark blue, sans-serif font. A small "SM" trademark symbol is located at the top right of the letter "K".A decorative graphic at the bottom of the image consists of a green area on the left that transitions into a dark blue wave-like shape extending across the bottom.

Re-Imagining Norfolk's Coastline— The Future of Harbor Park

Brownfield: "real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant."

[illegible]

View an interactive, online map at www.brownfieldstsc.org/roadmap that contains links to information about the general phases and spotlight topics.

Before you begin down the path outlined in the road map, it is important to get prepared. Preparation typically consists of the following activities:

- Setting reuse goals and planning
- Understanding regulations, regulatory guidelines and liability concerns
- Engaging the community
- Identifying funding
- Seeking professional support

- Begin Here

The Road Map “spotlights” highlight key issues, processes and initiatives. Each spotlight provides a summary of topics relevant to brownfields projects and identifies related resources. The following spotlights are included in the Road Map:

1. Redevelopment Initiatives
2. Supporting Tribal Revitalization

3. All Appropriate Inquiries
4. Project Life Cycle Conceptual Site Model

5. Data Quality
6. High-Resolution Characterization
In Situ Techniques

- 8. Challenging Cleanups
- 9. Understanding Role of Institutional Controls

10. Greener Cleanups

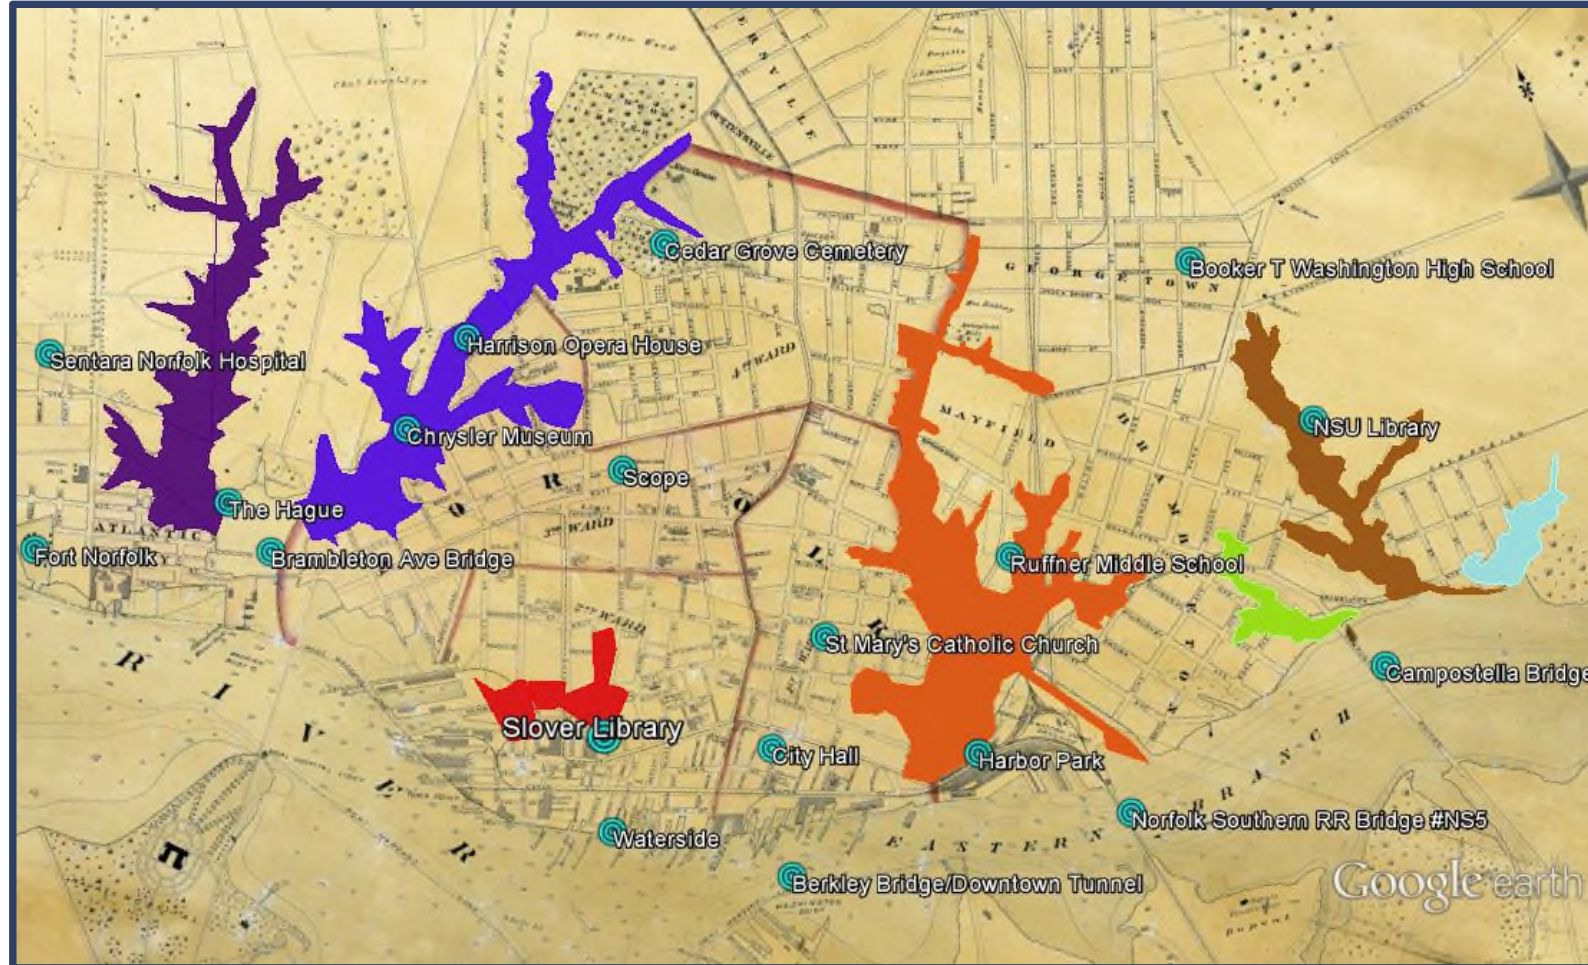

Norfolk is part of the Chesapeake Bay ecosystem

The largest estuary
in North America

One of the world's
most productive
estuaries,
environmentally and
economically

Harbor Park is part of the Newton's Creek watershed

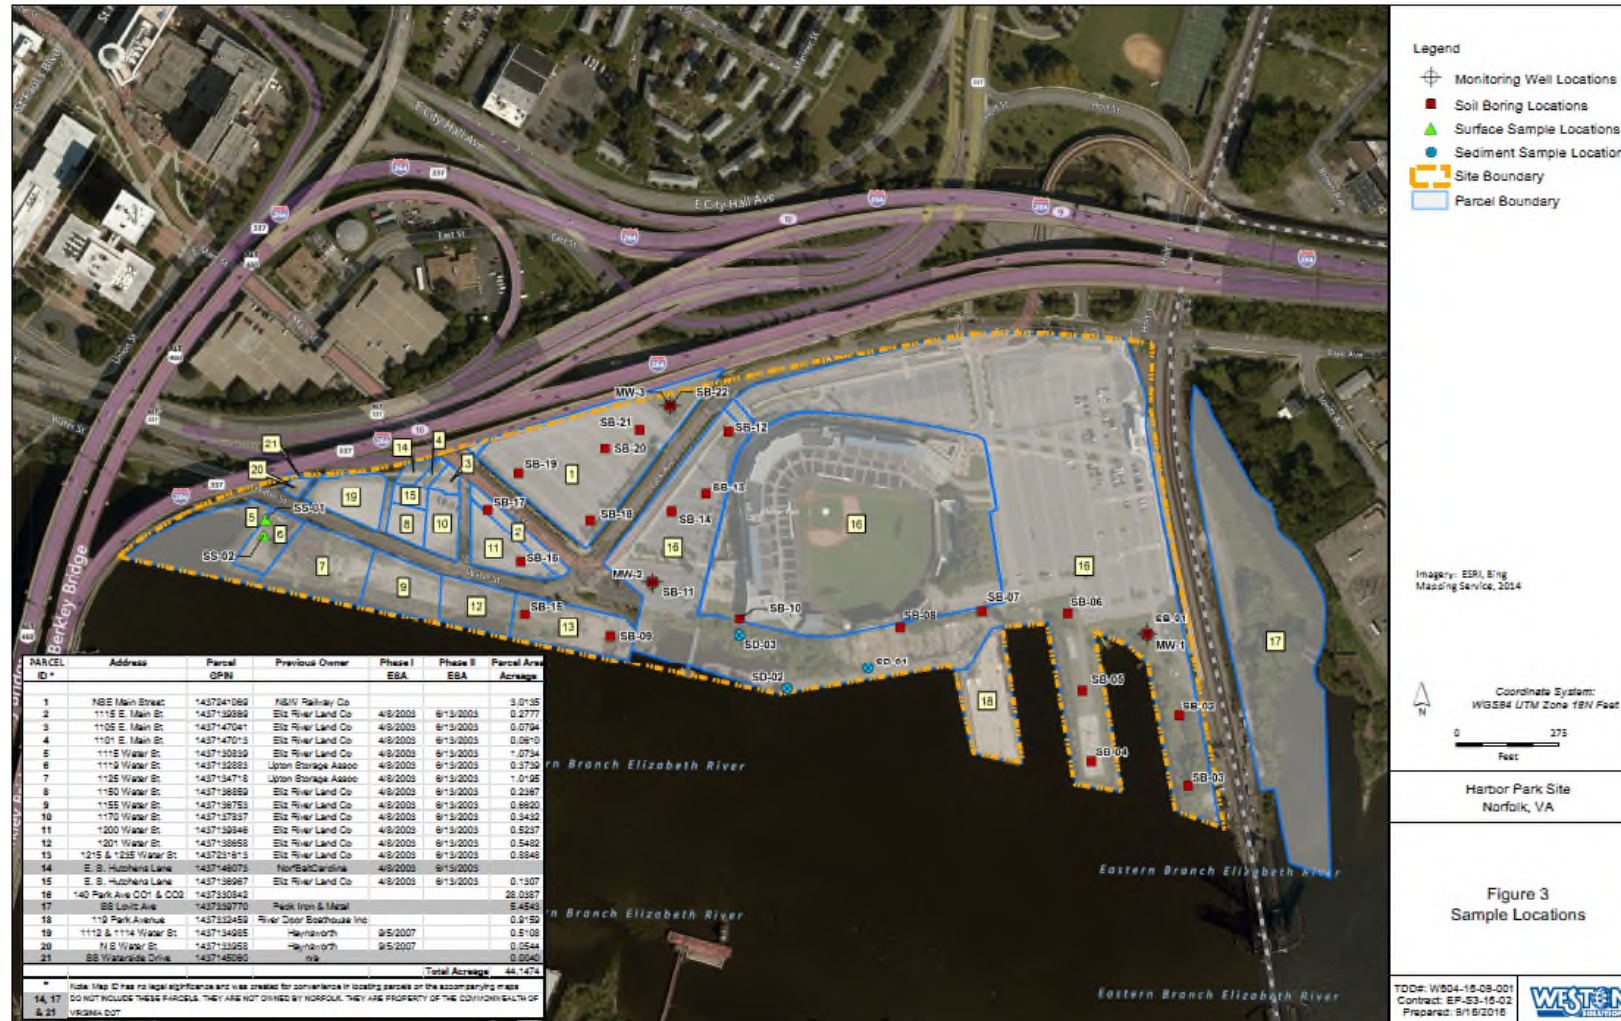

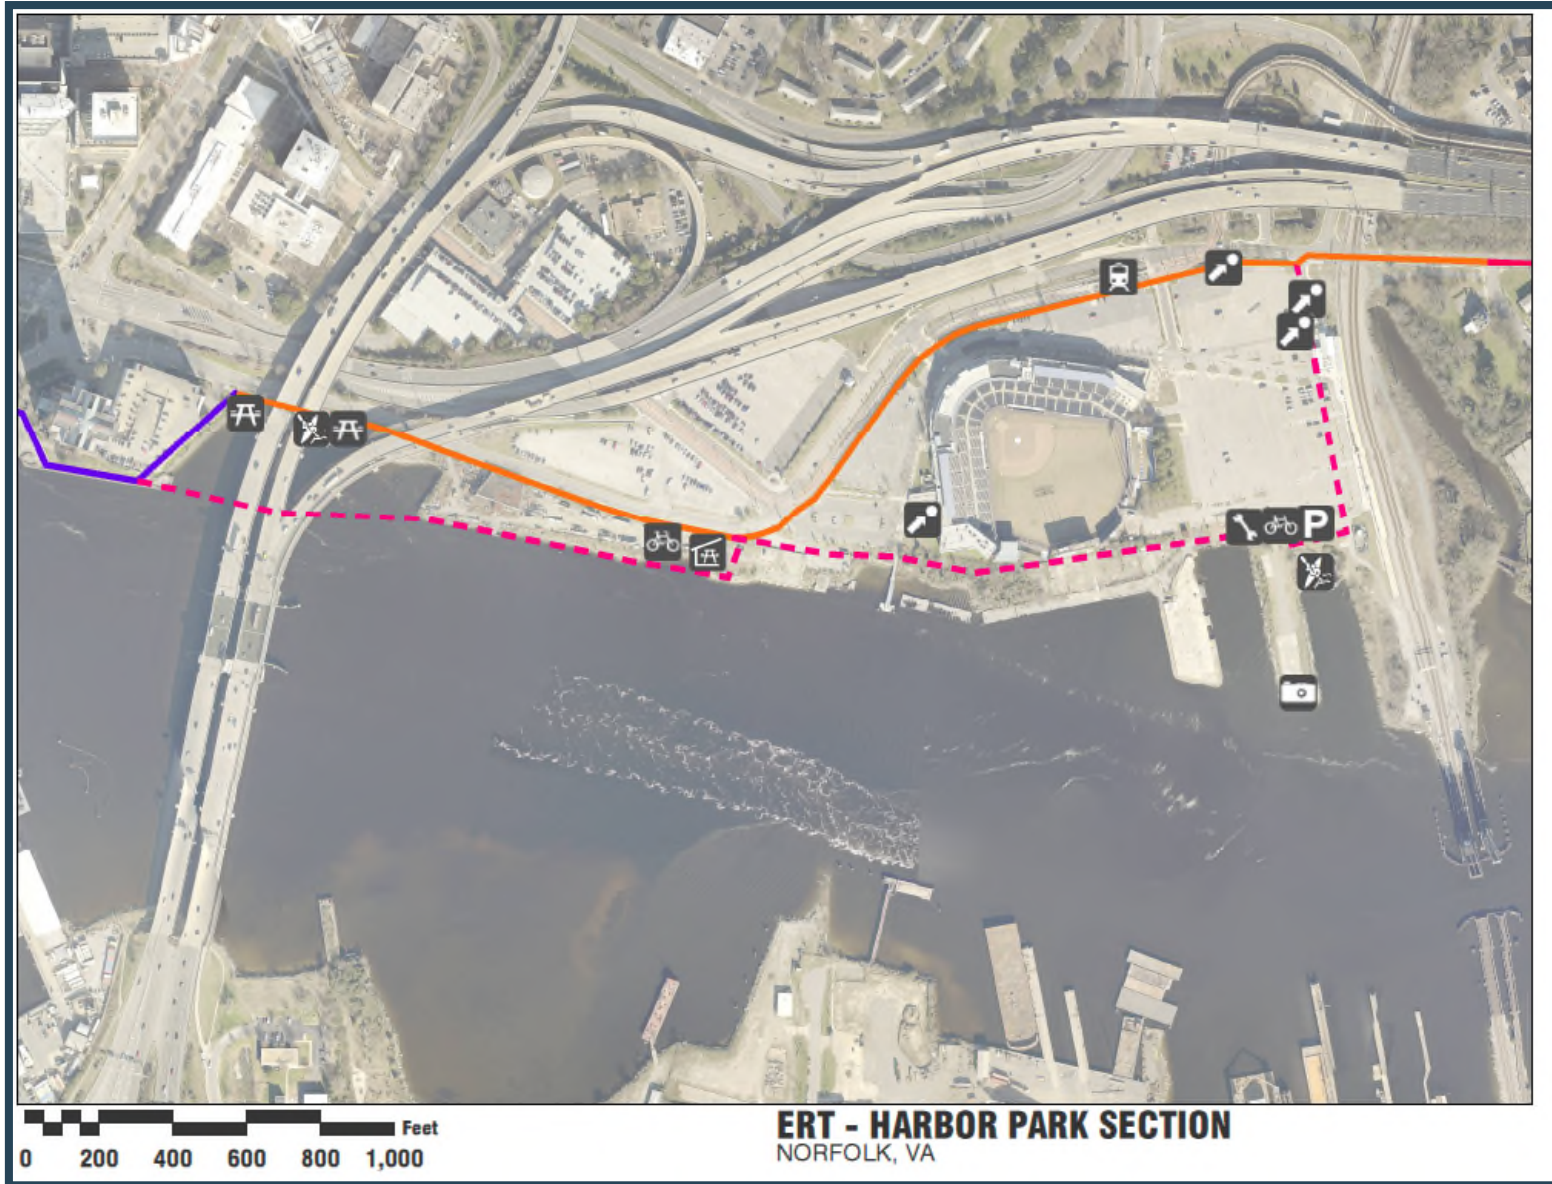

Harbor Park: a prime piece of real estate with vast potential for revitalization

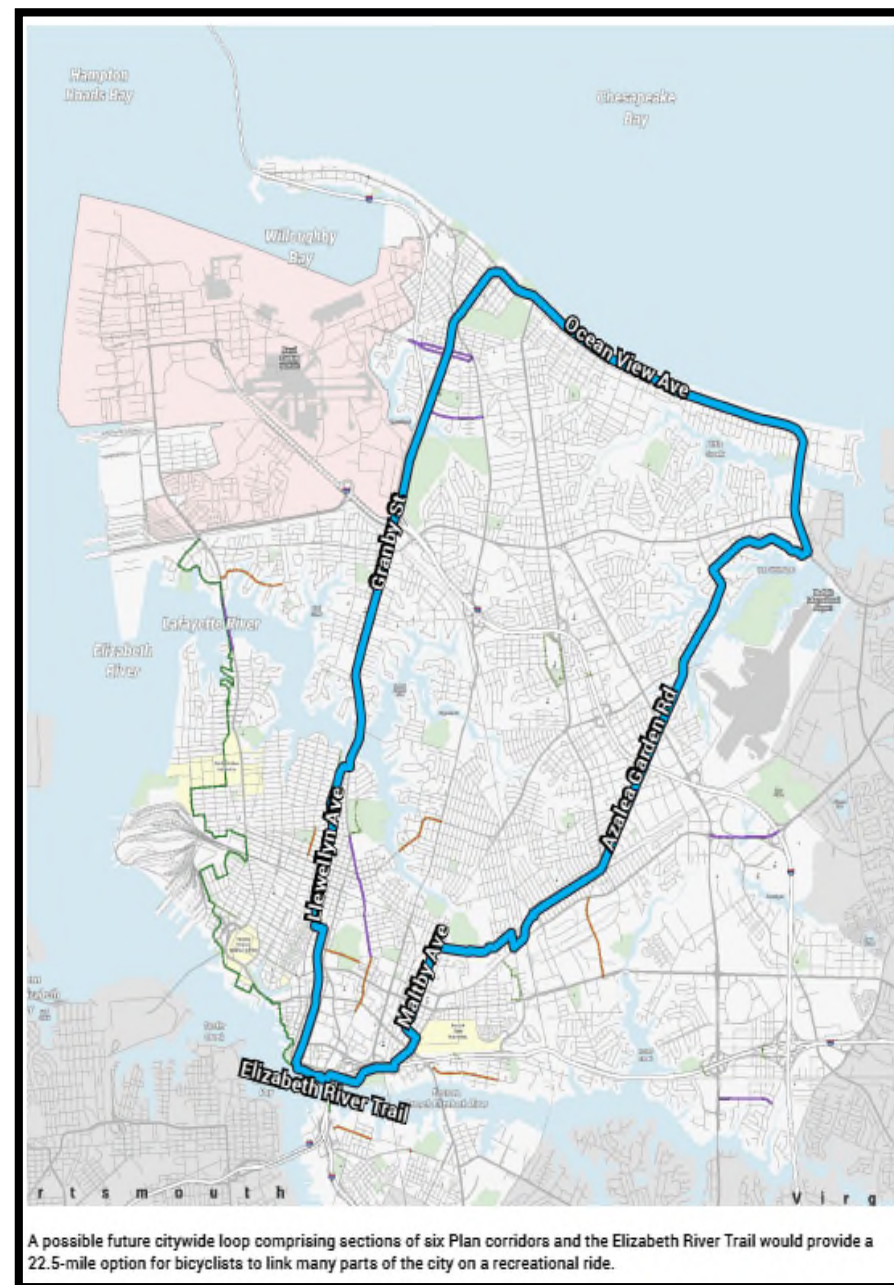

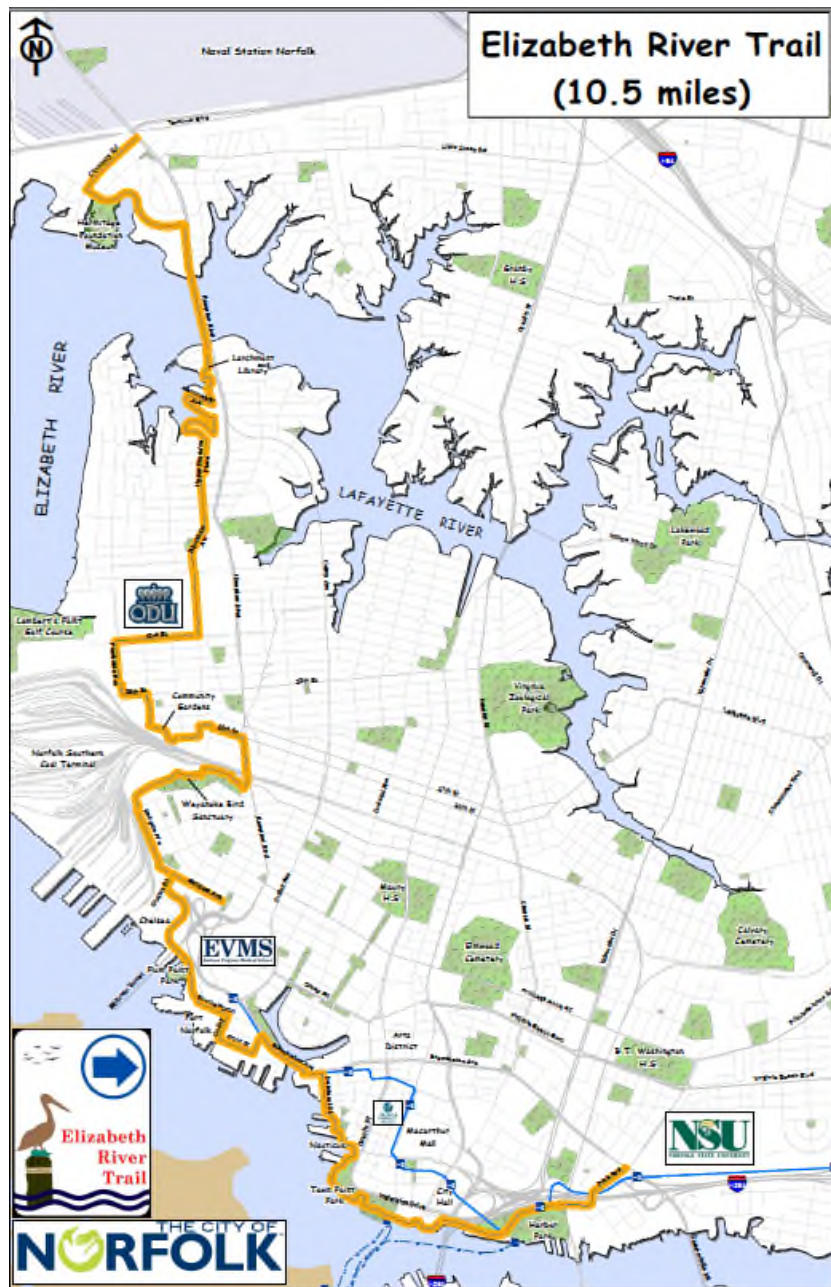

Harbor Park Targeted Brownfield Assessment concluded that contamination issues will not thwart revitalization vision

- Low Tide Water
- High Tide (Storm)

NEWTON'S CREEK WATERSHED

“At the workshop’s conclusion, the Dutch Dialogs teams will have identified strategies that promote integrated water management and resiliency, and are applicable for communities across Hampton Roads...”

Dutch Dialogs paired Dutch urban designers, engineers and other experts with their American counterparts to explore creative solutions to flood risks
